Course Description Bespoke's Digital SAT course equips students to walk in on Exam Day feeling fully prepared. Our instructors lead students through the test's entire structure and content, including the most effective strategies to use for each question. Our course also addresses test-taking practicalities, such as tech readiness, the Bluebook™ app, and device requirements. Students will gain valuable experience by working through real, released SAT questions and Bespoke's custom-developed materials. As always, small class sizes ensure a maximum of individual attention.

Mock Testing Note that mock tests are a required part of this course, and mock testing is especially important given the radical shift in testing format. Bespoke will be administering practice tests digitally, so that students gain experience with new exam conditions. As a result, they must show up to the mock with an exam-ready digital device (e.g., laptop or tablet; more details [here](#)). Two mock tests are included in the course fees. Mock tests are administered on Sunday at noon (via zoom). SAT mock testing normally takes about 2.5 hours, including instructions and breaks. Students receive a score report after

Post-Course Guidance After the completion of the course, each student will meet with the instructor for a one-on-one 60-minute mock review session online to develop a personalized study plan.
