## **Winter SAT Course**

Bespoke has teamed up with LearnFire to offer the very best Digital SAT course that will prepare students for the 2025 March SAT. Bespoke has offices in New York and Paris and has a 20-year track record of providing high-quality SAT preparation to schools globally. LearnFire is based in Lisbon and offers premium private academic coaching to students at international schools worldwide.

Bespoke's expert teachers will lead students through the test's entire structure and content, including the most effective strategies to use for each question. Our course also addresses test-taking practicalities, such as tech readiness and the Bluebook™ app (e.g., mastering the Desmos calculator). Students will gain valuable experience by working through real, released SAT questions and Bespoke's custom-developed materials in class and as part of assigned homework. Small class sizes ensure a maximum of individual attention.

**Mock testing:** The course includes the administration of a baseline dSAT diagnostic exam and access to Bespoke's 6 full-length practice tests via our testing platform. Students must take mocks with an exam-ready digital device (e.g., laptop or tablet; more details [here](#)). Testing normally takes ~2.5 hours, including instructions and breaks. Students receive a score report after each test.

**Additional information:** Some of the after-school classes will be taught live, in-person by Bespoke's instructors. Some classes will take place live on Zoom. All classes will be recorded in case students need to miss a class.

Each class, starting Monday December 9th, will run for 90 minutes from 4:00 to 5:30 pm on Mondays and Wednesdays, except during school vacation weeks. Total class time: 20 hours

Total testing time: 10 hours (Baseline exam + 3 proctored practice exams)

**Register [here](#) for the Winter SAT course by November 25, 2024. Register and pay for both the Workshop + Winter Course by Sept. 30 and receive the Workshop for free.**
