Course Description Bespoke's Digital SAT course equips students to walk in on Exam Day feeling confident and fully prepared. Our instructors lead students through the test's entire structure and content, including the most effective strategies to use for each question. Our course also addresses test-taking practicalities, such as the Bluebook™ app and making optimal use of Desmos, the built-in calculator. Students will gain valuable experience by working through real, released SAT questions and Bespoke's custom-developed materials in class and as homework. Small class sizes ensure a maximum of individual attention.

Mock Testing Note that mock tests are a required part of this course and have become especially important given the radical shift in testing format. Bespoke is administering practice tests digitally to give students experience with exam conditions. Thus, students must show up in person or via Zoom with an exam-ready digital device (e.g., laptop or tablet; more details here). Two mock tests are included in the course fees. Mock tests are administered on Sundays and last around 2.5 hours (including instructions and breaks). Students receive a score report after each test.

Post-Course Guidance After the completion of the course, each student will meet with the instructor for a one-on-one 60-minute mock review session online to develop a personalized study plan.
